

REAL BIG LEDUP

KEY FEATURES

01 TOOL-FREE ASSEMBLY

Few components, no tools: the profiles slide precisely into one another and connect quickly.

02 ANODISED ALUMINIUM

UV-resistant frame in silver anodised aluminium – timeless in appearance and robust in use.

03 STURDY PROFILE

Durable 12 cm deep profile with barely visible connectors – slim in design, sturdy when assembled.

04 EASY TRANSPORT

All components travel in robust ABS hard-shell cases with custom-cut foam inlays.

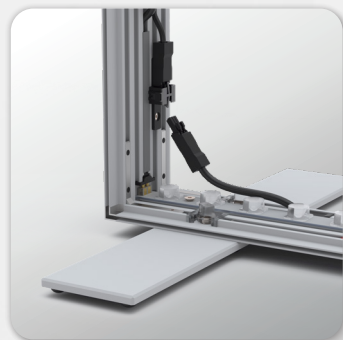

05 MODULAR SYSTEM

Start and extension modules combine into widths from 550 to 1000 cm, each in 4 heights.

06 EVEN ILLUMINATION

OSRAM LED technology with lens optics lights the graphic brightly and evenly – without shadows.

REAL BIG LEDUP

REAL BIG LEDUP is the largest mobile LED wall in the collection. It simply slots together and, despite its size, runs on a single power connection. Ideal as a backdrop for expansive trade show booths, promotions and events.

1

CHOOSE A STARTER MODULE

Four starting widths: 550, 575, 585 and 600 cm. They differ only in the width of the fifth section. Each starter module is supplied in 2 ABS transport cases.

STARTER MODULES

600 cm	BLUP-R-600-xxx	530 W
585 cm	BLUP-R-585-xxx	517 W
575 cm	BLUP-R-575-xxx	506 W
550 cm	BLUP-R-550-xxx	482 W

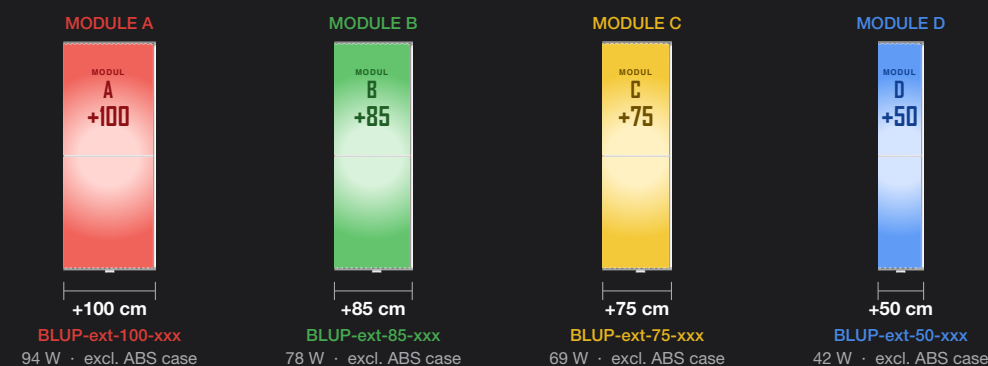

Remains when reduced to 300 cm

Every starter module can be reduced down to a width of 300 cm; only the extension modules in the middle need to be removed. Power consumption is then 280 W.

2

EXTEND WITH MODULES

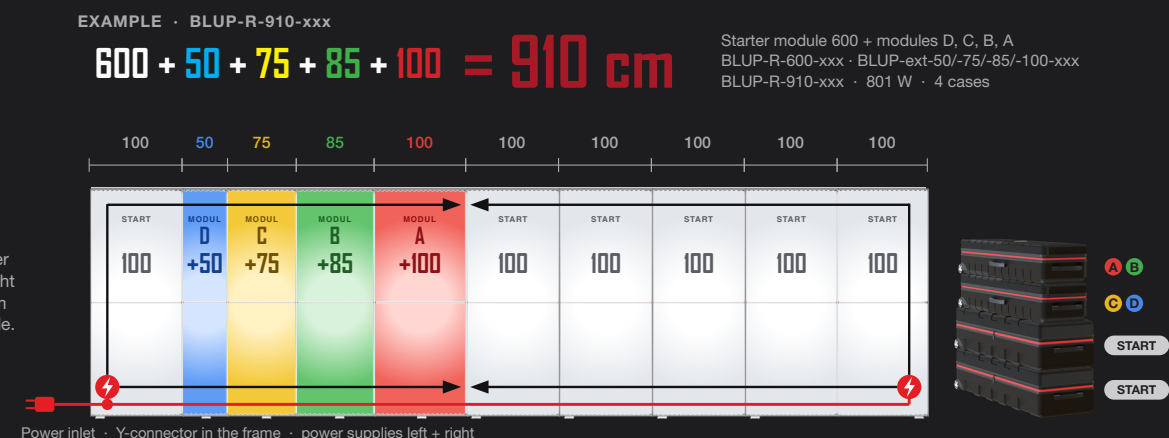

Four extension widths can be combined as required, up to 1000 cm. The modules sit on the left of the frame.

3

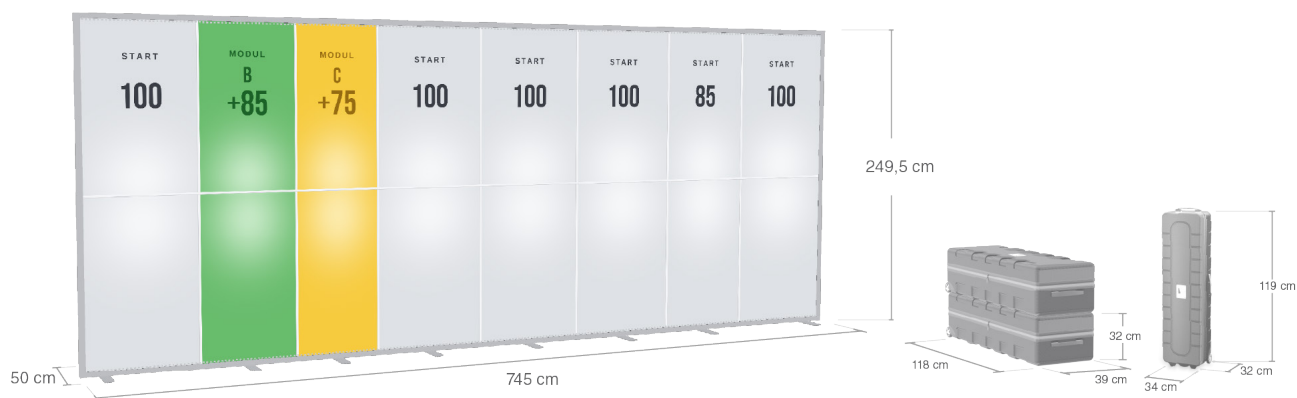

SET UP THE WALL

Power only arrives via the power inlet on the left. A Y-connector in the frame carries it to the right. Power supplies on the left and right feed the LED modules from both sides: up to 10 m wide.

xxx = height 200 | 230 | 248 | 298 cm · shown at a height of 248 cm
