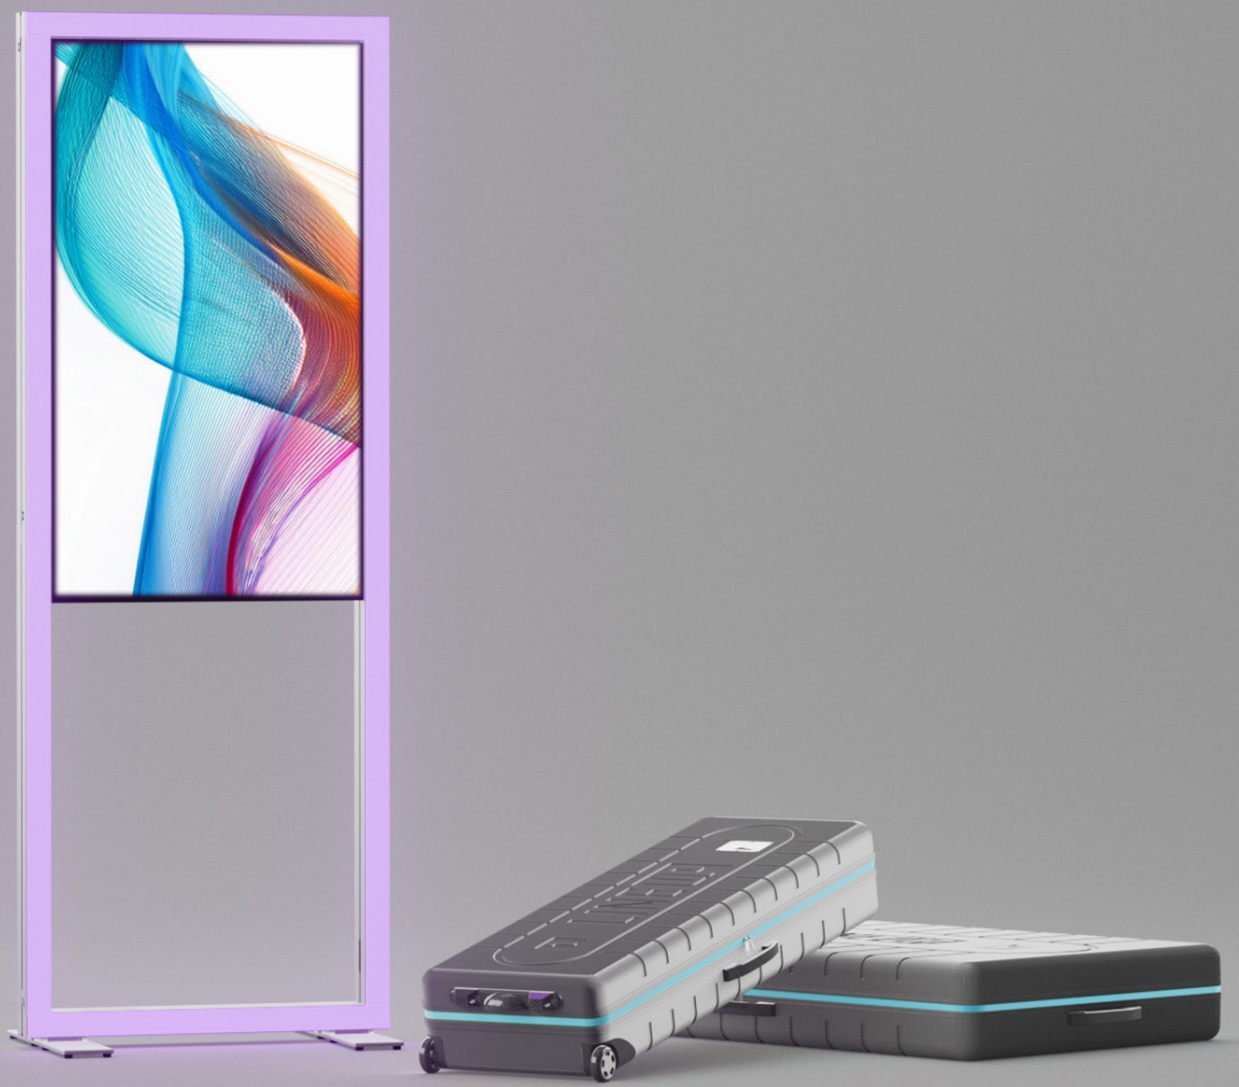
LINE UP SCREEN



LINEUP SCREEN

The LINEUP screen 200 turns a slim display stand into a stage for digital signage. One power cable supplies the whole system. Content is uploaded via USB or an online CMS. This puts moving images exactly where customers look: at trade shows, in the showroom and at the point of sale.

KEY FEATURES

UP TO 16,7 MILLION COLOURS

01
1x DIGIUP DISPLAY
The 49-inch portrait screen is designed for 24/7 operation and reaches up to 700 nits.

02
FULL HD & ANTI-GLARE
1080 x 1920 pixels and an anti-glare surface ensure a clear view across a 178° viewing angle.

03
TOUGHENED GLASS
A 3 mm pane protects the screen against mechanical impact.

04
FORMAT
Product dimensions (W x H x D): 73,3 x 202,5 x 50 cm – compatible with the LINEUP Collection.

05
TOOL-FREE ASSEMBLY
Push-fit, not screwed: the profiles slot together quickly and precisely.

06
RGB LED LIGHTING
Integrated LEDs in the frame edge shine statically or dynamically in up to 16,7 million colours.

07
EASY TRANSPORT
All components travel in wheeled ABS hard-shell cases with custom-cut foam inlays.

08
INTEGRATED SOUND
Two built-in 5 W speakers, each with its own audio channel, play sound directly on the unit.

09
FABRIC PANEL
Optional fabric prints on the front and back carry an additional message and are quick to swap.
