

LINEUP

SCREEN

LINEUP SCREEN

The LINEUP screen 230 single turns a slim display stand into a stage for digital signage. One power cable supplies the whole system. Content is uploaded via USB or an online CMS. This puts moving images exactly where customers look: at trade shows, in the showroom and at the point of sale.

KEY FEATURES

UP TO 16,7 MILLION COLOURS

01 1x DIGIUP DISPLAY

The 49-inch portrait screen is designed for 24/7 operation and reaches up to 700 nits.

02 FULL HD & ANTI-GLARE

1080 x 1920 pixels and an anti-glare surface ensure a clear view across a 178° viewing angle.

03 TOUGHENED GLASS

A 3 mm pane protects the screen against mechanical impact.

04 FORMAT

Product dimensions (W x H x D): 73,3 x 232,8 x 50 cm – compatible with the LINEUP Collection.

05 TOOL-FREE ASSEMBLY

Push-fit, not screwed: the profiles slot together quickly and precisely.

06 RGB LED LIGHTING

Integrated LEDs in the frame edge shine statically or dynamically in up to 16,7 million colours.

07 EASY TRANSPORT

All components travel in wheeled ABS hard-shell cases with custom-cut foam inlays.

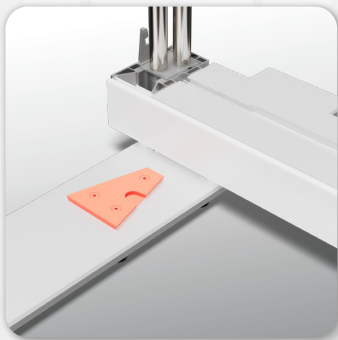

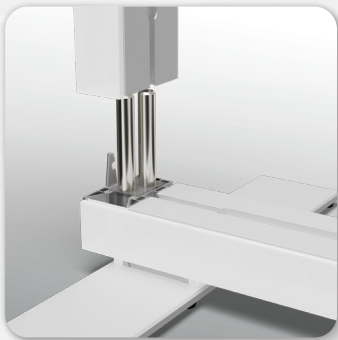

08 INTEGRATED SOUND

Two built-in 5 W speakers, each with its own audio channel, play sound directly on the unit.

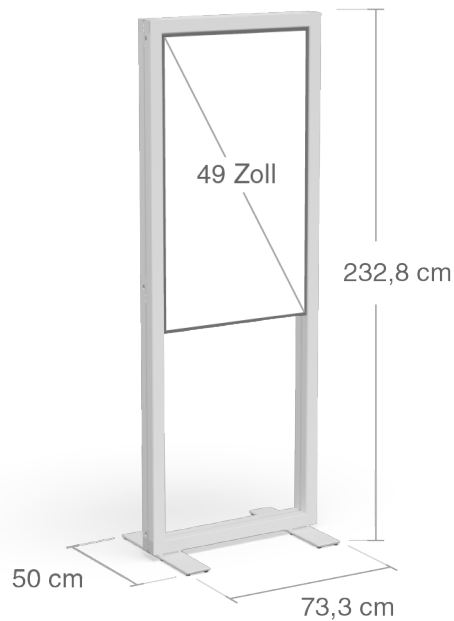

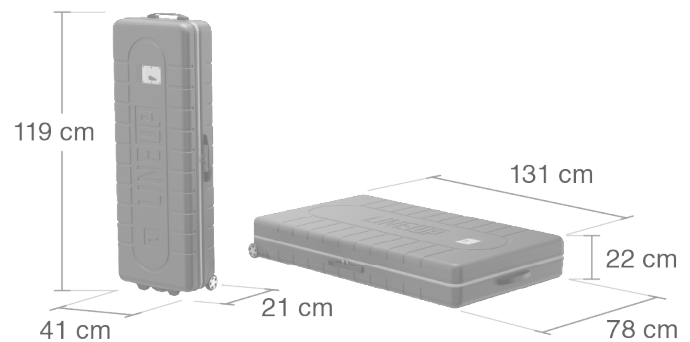

09 FABRIC PANEL

Optional fabric prints on the front and back carry an additional message and are quick to swap.
