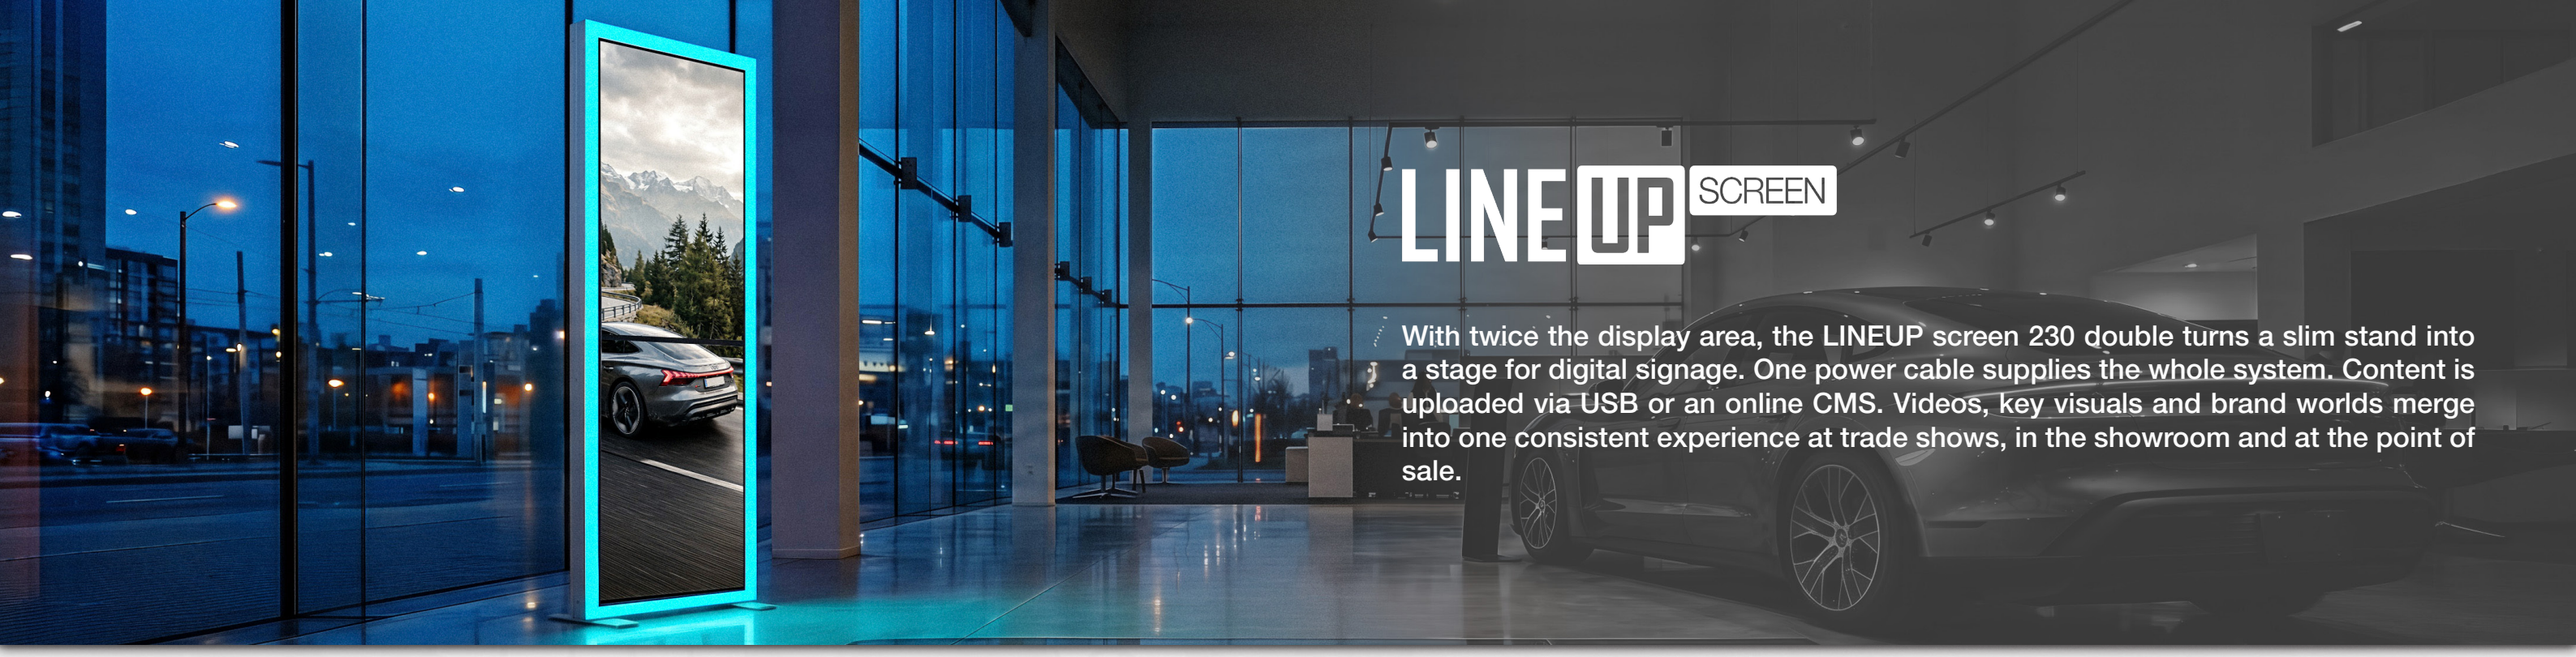
LINEUP SCREEN



LINEUP SCREEN

With twice the display area, the LINEUP screen 230 double turns a slim stand into a stage for digital signage. One power cable supplies the whole system. Content is uploaded via USB or an online CMS. Videos, key visuals and brand worlds merge into one consistent experience at trade shows, in the showroom and at the point of sale.

KEY FEATURES

01
2x DIGIUP DISPLAYS
Both 49-inch portrait screens are designed for 24/7 operation and reach up to 700 nits.

02
SYNCHRONISED PLAYBACK
With DIGIUP MUDI software, the two screens form one pixel-perfect image across the full height.

03
TOUGHENED GLASS
A 3 mm pane protects each screen against mechanical impact.

04
FORMAT
Product dimensions (W x H x D): 73,3 x 232,8 x 50 cm – compatible with the LINEUP Collection.

05
TOOL-FREE ASSEMBLY
Push-fit, not screwed: the profiles slot together quickly and precisely.

06
RGB LED LIGHTING
Integrated LEDs in the frame edge shine statically or dynamically in up to 16,7 million colours.

UP TO 16,7 MILLION COLOURS

07
EASY TRANSPORT
All components travel in wheeled ABS hard-shell cases with custom-cut foam inlays.

08
INTEGRATED SOUND
Four built-in 5 W speakers, each with its own audio channel, play sound directly on the unit.

09
FABRIC PANEL
An optional fabric print on the back carries an additional message and is quick to swap.
